In the case of W. S. Tanner et al vs Jos. Finlayson et al, defendants' motion for a new trial was argued in the Fourth district court and taken under advisement.

GARDEN CITY NOTES.

A daughter has been born to Mr. and Mrs. Oscar Flygare of the Second ward; all well.

County Recorder Fyne was notified yesterday that his blooded horse, Violet, Rollins, now Marshall, died at her home in Minersville yesterday morning. Mrs. Rollins attended the Brigham Young academy in 1890-1, and has many friends in various parts of the state. Her husband is now in Canada.

A young man by the name of Mannix was arrested here yesterday for being a vagrant. He was charged with being a vagrant, and here believe he is accused of taking some musical instrument. Mannix is dumb, and has been more or less confined to his home for some time past.

Quite an exciting event happened last evening at the Maine saloon. An A. A. detective, by the name of Duncan, was lying down back of the saloon, he says, for professional reasons, when a young man came out and searched him, with the intention, as the detective claims, of robbing him. The detective pulled a gun on the young man and induced him to accompany him, the detective, to the sheriff's office. A large crowd of young men followed the two men over, and there the detective told the story which is given above in brief. The prisoner told an entirely different story. He says he fell over the detective, who was asleep, and that when he awoke the sleuth up, he pulled the pistol and placed him under arrest. The crowd all said the detective had not time, even if he had the disposition, which they also deny, to do what the detective claims he did in the way of searching for a vagrant. After the sheriff had heard both sides, both parties were permitted to go.

John H. Davis of this city is anxious to hear from his brother-in-law, Jesse Davis, who was killed at Tonopah, Nev., a few months ago.

EUREKA.

Special Correspondence.

Eureka, Utah Co., Aug. 27.—Sheriff Dan B. Cronin of this county returned yesterday from Tooele City, having in custody the young Indian Bapah, whom he lodged in the jail here on a charge of murdering his father, "Lucky Joe," on the 15th of this month at Calia, a small settlement in the extreme western part of Utah. The young man, who is about 19 years of age, is above the average Indian in intellect and Sheriff Cronin says he is very obnoxious to all this kind of law around him, though he retains a stolid demeanor.

In an interview with him at the county jail, the "News" representative asked the presence of the sheriff, who gave him the version of the tragedy. He states that his father, "Lucky Joe," was considered a very bad Indian by his neighbors, and on several occasions had threatened his (Bapah's) life. On the 15th of the present month he secured a couple of bottles of firewater from someone and became intoxicated and began looking for trouble. He saw his Winchester rifle the old man began a search for his son on whom to wreak his vengeance, making threats that he intended to end the existence of the lad when found. Bapah saw his parent coming and got behind him and grabbing the gun hit his sire a blow with the weapon, felling him to the ground. He struck him a couple of blows after he had fallen to the ground and he was rendered harmless. The first blow probably proved fatal as the hammer of the rifle entered the old man's brain.

The parade was brought into court this morning and Judge Burris set the preliminary hearing for September 15, on account of the distance to be traveled by the witnesses to the tragedy. In the meantime Bapah will be the guest of Sheriff Cronin here. He was taken to a photograph gallery this afternoon and had his picture taken for future reference.

SILVER CITY.

SPORTING RESORT BURNED.

Delegates to Butte Mining Congress - Death of James Ashley.

Special Correspondence.

Silver City, Utah Co., Aug. 28.—Last night fire destroyed a sporting resort in the center of the inmates at Eureka. How the flames originated is a mystery. The citizens of Silver City responded to the alarm with alacrity owing to the low water pressure nothing could be saved of the house or furniture. The residence was a two-story brick of nine rooms, located in an isolated part of the camp. The loss of the building was \$2,000, with an insurance of \$1,500.

Dr. Hagan of Silver City has closed his office and removed to Randolph, Utah, where he will resume the practice of medicine.

County Commissioner A. F. Hecker of Silver City has appointed the following gentlemen to act as delegates from the county to the International Mining congress at Butte City, Mont., which meets next week: John T. Hays and Hans Hassell of Mammoth, and Jackson C. McChrystal of Eureka.

James Ashley, for several years a resident of Silver City, died suddenly at Castilla Springs last Saturday. He had been a sufferer from miner's consumption and had gone to the springs for relief. He was about 45 years of age. He remains were buried in the Provo City cemetery.

LAKE TOWN.

VICTIM OF ACCIDENT.

Simcoe Weston Falls from Horse And Expires in an Hour.

Special Correspondence.

Lake Town, Rich Co., Aug. 28.—Simcoe Weston, a quiet, well disposed 17 year old son of Joseph Weston, went to the store Wednesday afternoon and got some fencing wire. On his way home he was riding a friendly ride with him and as Simcoe was mounting the horse he slipped and falling the horse fell over him. The horse got the leg slightly hurt, but it is thought the horse stepped upon him. Simcoe, for he died within about an hour of his falling, was taken to the hospital where he was kept for some time, but he died from his temporary resting place.

The sympathies of the people are greatly drawn out in behalf of the boy, who died of his short time. His father, who was very much distressed by the loss of his son, was killed by a fall from a derrick, and it would seem almost as though some peculiar providence had ordained that one of his sons should be killed away. The deceased had never regained consciousness after his fall, indeed when picked up his breath had seemed to come, but from Aquila Nebeker, Bishop Nebeker and others, who were within call, worked with him and animation was somewhat, though but briefly restored.

LEHI.

DARING BURGLARY.

Inmate of Hotel Robbed While He Slept - M. I. A. Outing.

Lehi, Utah Co., Aug. 28.—One of the most daring robberies in the history of Lehi was perpetrated last Tuesday evening in the Union hotel, says the Lehi News. The victim was very nearly the representative of the Studebaker Wagon company of Salt Lake, who is in Lehi selling bicycles for the firm.

Mr. Love was in his room at the hotel about 11 o'clock p. m. Tuesday evening and closed the door, but owing to a defective lock, the door was not locked as Mr. Love supposed. In the morning he discovered his money taken was \$128 and a few cents, a portion of which was in a New York check. There is no clue to the robber, though the officers have their suspicions.

M. I. A. EXCURSION.

The M. I. A. of the Alpine state is working up a grand excursion to Saratoga Springs to come off on Labor day, Sept. 1. All kinds of sports and amusements will be enjoyed. It will be the greatest event of the season and a large crowd is looked for.

Mrs. Harriet Jacobs came home from St. Mark's hospital Sunday, where she has been for the past three weeks under treatment for rheumatism. There is no improvement in her condition.

While riding a bicycle last Thursday evening the son of E. S. Lund was run down by four men who had imbibed freely, and evidently had had too much. They were Rudal Rogers, Ben Adams and Charles Adams of Pleasant Grove and John Yates of Lehi. They were brought up before Justice Ross and each fined \$7. The boy's leg was broken and his knee cap injured.

PRICE.

BIG OPTION ON COAL LANDS.

Waterworks for Price - Good Crops In Carbon and Emery Counties.

Special Correspondence.

Price, Carbon Co., Aug. 28.—The public schools of this city open the first of Sept. next, and have every prospect of a full term, though some fear has been expressed that smallpox, which has been making its appearance, might interfere. The teachers are five in number and are among the best educators of the state.

BIG OPTION ON COAL LANDS.

Twenty-five thousand acres of coal lands have lately been surveyed off at the head of Huntington canyon for Emery county holders, who expect to place an option on the same with Don Robbins for the Kimberly and Rule syndicate, the latter having made a partial deal for the iron deposits in the vicinity of Cedar City.

FIGURING ON WATERWORKS.

Hon. Reuben C. Miller of the town council is figuring with an engineer for estimates and cost of construction of a waterworks system for the town. The plan is to have a reservoir made above the town from which water for fire protection and local consumption may be had by a gravity pipeline. Estimates are to be submitted, perhaps, at the next meeting of the board.

Sheriff Priest of Utah county left here today with the body of Leslie Atwood, the missionary who lately died in New Zealand. It is being taken to the home of the deceased at Vernal, where it is to be interred in

this morning and Judge Burris set the preliminary hearing for September 15, on account of the distance to be traveled by the witnesses to the tragedy. In the meantime Bapah will be the guest of Sheriff Cronin here. He was taken to a photograph gallery this afternoon and had his picture taken for future reference.

Walter Anderson, the young man who yesterday had his right leg broken by a piece of heavy machinery falling on it, is doing nicely, and the attending physician, Dr. E. J. Warth, says amputation will not be necessary, though at first it was thought it would be. Young Anderson stood the strain very well, having chloroform administered to him.

RELIEF SOCIETY CONFERENCE.

Quarterly conference of the Emery Stake Relief society will be held in Price next Sunday, with a large attendance from the southern wards. Several prominent workers of the society in Price and the Duchesne rivers, where they have been to look up reservoir sites. They found some good locations on the Bear river, which could be brought into Chalk creek and then in to the Weber.

LOOKING UP RESERVOIR SITES.

The state engineer and the water commissioners of Summit, Morgan, Weber and Davis counties got back from their trip on the 26th from the head of the Bear, Weber and the Duchesne rivers, where they have been to look up reservoir sites. They found some good locations on the Bear river, which could be brought into Chalk creek and then in to the Weber.

WHY WE DO NOT SUCCEED.

A good many of us wonder why we do not succeed on the farm. One reason why, says a practical man in the N. Y. Tribune Farmer, we do not may be seen in the green streak of grass leading away from the barnyard. Valuable manure is tossed out to lie against the side of the barn, its rich qualities passing off in the air and trickling down with every shower or prolonged rain. Another reason is one lack of careful calculation about doing our work. We put into our labor all the strength of which we are possessed. We are busy from daylight till dark, but for lack of wise forethought—that great task—we still miss the mark and are in the end beaten. Other faults are allowing our buildings to go without painting so long that insects as much oil and lead are needed to fill the wood as if we had done the work when it should have been done, allowing our fences to fall into decay, keeping in stock that we should and selling off the hay year after year, overstocking our pastures, living too much for ourselves, letting the farm take on an aliphatic and generally run down appearance and never keeping up with our work. Through these holes, small though they may seem, go the profits from our farm, and we end by declaring that farming does not pay and perhaps that life is a grand failure.

I have in my mind's eye a certain man who is a living example of what study and care will do for the dairy farmer. This man was going along with a few cows of common stock, like the most of his neighbors. He made ends meet, but that was about all he did for his farm. One day he made up his mind that it was too short and time too valuable to be spent in a slipshod way. He turned over a new leaf, and he turned out his stock, including population of the 1900 census, with a brief sketch of every county in the world. Size 7x11 1/2 inches. Value 15 cents. Sent to any address for 25 cents. Address Cannon Book Store, (Deseret News Props.), 11 and 15 Main street, Salt Lake City.

Teachers' examination is in progress now at Richfield and about 20 applicants for certificates are taking the examination.

It has made a most desperate effort to rain here for the past week, but thus far has failed. However, other towns outside of Richfield in this county have been visited by heavy rains. Verily it seemeth that in this county the rains do not fall on the just as well as the unjust.

DIAMOND.

THOMAS WALL IS DEAD.

Pioneer and Black Hawk War Veteran Laid to Rest.

Special Correspondence.

Diamond, Utah Co., Aug. 28.—Thomas Wall of this place departed this life at 9:45 o'clock Thursday evening, Aug. 27. In the death of Brother Wall, we have parted with a brother and friend, who was a pioneer of the county, and a public enterprise, and aiding the missionary.

But that was about all he did for his farm. One day he made up his mind that it was too short and time too valuable to be spent in a slipshod way. breed he fancied he went and bought her, no matter if he did have to pay a good round sum. This he kept up year after year, until now he stands at the head of his profession in the section where he lives. Now men go to him for stock. His cows two years ago brought him \$65 each for the season. I have not heard the figures since. Now, what is the reason the rest of us cannot do just as well?

WHEN THE CROPS ARE IN.

"There's a kind of happy feelin' creeps down in a fellow when he's got his punkins gathered and the haymow's full again; There's hope in the air the breezes that come blowin' from the hill. And you get to kind of thinkin' God is up there somewhere still; What a purty sight the wheat is as it's Oh, it's good to be a farmer when the crops

Are In.

"It's lively in the city and it's very quiet here. There the hurry and the racket keeps again all the year; There most every day's excitin' and they keep it up at night, Every way a person gazes there is some uncommon sight. And I spose it's never nonecum livin' round the haunts of sin— But the city people never have their crops

Are In.

"There's many a day of tollin' and there's many an ache and pain, And there's lots of frettin' at the dryness of the rain. There's the weeds and worms and insects that the farmer has to fight, But the good Lord doesn't often fail to put 'im through all right, And the sweetest satisfaction that a mortal man can win Sort of hovers round the farmer when the crops

Are In.
